

Responsible Care® Policy Statement

Deccan Fine Chemicals (I) Pvt. Ltd is committed to apply Responsible Care principles for continual improvement in the areas of Environmental Management, Safety & Health Protection, Safe Transportation, Product Safety, Process Safety Management and Security of our processes, products and activities.

We are committed to:

- Implement Responsible Care management system and promote sustainability.
- Incorporate HSE in our business strategy and processes to achieve beyond statutory compliances.
- Continually improve HSE performance through effective evaluation of risk, audits and monitoring of performance indicators.
- Operate our plants and facilities in a manner that protects the environment and the health and safety of our employees and the public.
- Embed HSE culture through effective training and communication.
- To promote pollution prevention, minimization of waste, conservation of energy and the responsible use of natural resources.
- Secure our facilities and data in line with requirements of the security code of Responsible Care.
- Maintain an open dialogue with employees and stakeholders to address their concerns and assure them of our continued dedication.
